TEAMSTERS JOINT COUNCIL 32 ENDORSES TARRYL CLARK FOR U.S. CONGRESS - 6TH DISTRICT

Minneapolis — Today Teamsters Joint Council 32 officially endorsed Tarryl Clark, candidate for Minnesota's Sixth Congressional District. The vote was unanimous by the Teamsters Joint Council DRIVE Commission and immediately affirmed by the Joint Council Executive Board. The early endorsement commits one of the largest labor organizations in Minnesota for an anticipated hard-fought battle for a Congressional District that has heavy Union propensity.

"We will do everything in our power to assure that workers in Minnesota's Sixth Congressional District will finally have a voice that understands what the real issues are that affect working families," Sue Mauren, Teamsters Joint Council 32 President said. Teamsters Joint Council 32 represents in excess of 62,000 active and retired members in the state of Minnesota, and a very large amount in the Sixth Congressional District. "We will reach out to our members in the district and show them the facts as to how they have been ignored by the current Congressional Representative. She has been an absolute disappointment and, in many cases, an embarrassment to voters in the area," Mauren went on to say.

Tarryl Clark is currently the Assistant Majority Leader in the Minnesota State Senate and has been at the forefront and a vocal advocate for many working family issues. "We are proud to stand side by side with Senator Clark and work with her on a successful campaign," Patrick Radzak, Secretary-Treasurer of Teamsters Joint Council 32 said.
